

Peak Construction Starts Black Creek Group's 320 Dulty's Lane in Burlington, New Jersey

Peak Construction Corporation has been awarded Black Creek Group's 320 Dulty's Lane in Burlington, New Jersey. Construction has started on the 208,280 square foot speculative facility and is expected to continue until late April 2021. The building is being constructed on a brownfield site with sitework import and export limitations and will feature a 36-foot clear height, 38 dock doors, 19 leveler positions and two drive-in doors. Peak is teamed with construction manager Avison Young, architect Ware Malcomb and civil engineer Langan.

Black Creek Group is a real estate investment management firm that has bought or built over \$21 billion of investments over its 25-year history. The company manages diverse investments across the spectrum of commercial real estate- including office, industrial, retail and multifamily. The company has seven offices across the United States with approximately 300 professionals. Black Creek Group offers a range of investment solutions for both institutional and wealth management channels.
