

Get to Know The PEAK Team...

Michael McCormack | Senior Project Manager
East Coast Office

What do you like most about working at Peak?

I am new here at Peak and there are a lot of things that I like thus far. What stands out to me most is the quality of people that we have. Everyone I have met is knowledgeable, courteous, focused, seem to enjoy what they are doing and always willing to assist when needed.

What is one surprising fact about you that many don't know?

I am also a licensed Coast Guard captain with a 100 ton master license and I help my friend run his family's charter boat business in the summer and fall months. I am also A PSIA ski instructor in the Poconos on the weekends in the winter months.

What is the best advice someone gave you?

Never quit; when things get hard, get focused and keep trying until you get the result you desire.

What has been the most fun furthering building Peak's East Coast presence?

Seeing and being a part of the projects that are being built and the opportunity to estimate and run my own projects.

Where do you see yourself if five years?

Hopefully, continuing to run projects and help establish Peak's East Coast office while getting the opportunity to work with all of the great people we have on staff, as well as, continuing to build our presence and success here.

If you weren't working in construction, what would you be doing?

I would be captaining a fishing boat in the Florida Keys.

Overall vibe at Peak so far?

Everyone at Peak cares about the work they are doing and wants to make sure their projects are successful.

Motto

Sine Timor | It is on my family's coat of arms meaning "No Fear".

Hobby

Anything Outdoors | Fishing, Hunting & Skiing
